

The morning had been spent chasing players. Picking them up...then no ref and two players arrived late. So an injured Stuart Niall went in goal until the keeper arrived. We also missed a lively midfielder too. With Grant then pulling up with hamstringing after about 20 mins we were forced to make more changes. We never really got going although Mark Newman did beat the offside trap to slot one past the keeper for 1-0. We held out until a freak rebound made it 1-1. Then Parns started to play with more confidence as we lost our way. A corner was defended badly, maybe keeper should have claimed it, maybe missing Grant in there or more poor marking...but it led to easy headed goal for them in six yard box. Another corner ...bit deeper this time and again a free header. We pushed on but one or two tired legs and heads dropping...we never really looked like we were going to get back in it despite a penalty won by Richard Offord after a mazy run being put away by Mark Newman late on.
