

It was a tight first 20 mins with very few chances. A mazy run from Crispin deserved a goal but a weak shot followed. We pressed and had free kicks.....but our strikers we more like Johnny Wilkinson blazing over the bar or out wide for the corner flag try??. With Richard Offord adding height and speed in the back four and Greg shouting his orders the defence looked and was solid. This gave the midfield chances to spring forward and they did. Indeed the first four goals were all from midfield. The second the crucial one as Jevon sprinted to close down a cross ball in their defence and stole it from their defender to fire home. As a primary school kid I was always told never to play a square pass just outside the penalty area - and that\'s why !! 2-0 up and the oppose heads dropped. We pushed on for more and after Jevon scored another Crispin\'s second mazy run was this time finished in fine style. We only had one nervy moment in the 2nd half despite their change to three up front....but James came out well to smother the ball in one on one situation. We were by now cruising and teasing Mark and Steve our so called strikers that they had not scored. It was only with 5 mins remaining their keeper stranded by a deep cross which reached Mark to head in at the far post with a diving header. 5-0 and great recovery from the previous week. Well done boys !!
