

What with events so far this season.....this was a typical match day. three people pulling out Fri eve / Sat am resulted in a ten man team. But with 30 mins gone and the wind helping us we had kept them at bay and were 0-0. Indeed we had probably more shots than them too.....mind you not all on target with Jevon having a shoot at will day as lone striker, running everywhere and shooting once he had the ball. He did not repeat his fine goal of the week before. Then having teased Duncan about his own goal prowess at the meet....it happened. A shot come cross was intercepted by Duncan. It scooped up high in the air and swirled into the back of the net. Nothing James the keeper could do about it as he had come for the ball. With the wind against us we were always going to be on the back foot. We were a little more so now as Grant playing with Flu symptoms and not really well enough to play was warned by ref for tackles so he was less effective and even Mark Newman was playing with hairline fracture of a rib (from week before) so really he needed to be careful too. Regretfully we could not hold out and the score became unjust later on as I mention above in other notes. Final score - we lost 5-0. We can hold our heads high with team spirit though (those that turned up!)
